"I hadn't been standing a minute when I heard a twig snap back of me, and before I could turn half way round something struck my back and drove me forward on my hands and knees. Of course I instantly realized that a began to kick with its hind feet, snarling and tearing at the coonskin with is now Taney county the canebrakes its teeth. "This time I spied a pair of eyes on a limb about fifteen feet above the snow and blazed away at them. A panther tumbled out, began to pitch and dive in the snow, soon turning up its toes. Then I pulled off the overcoat and discovered that the panther had ruined it. The claws hadn't touched my flesh though, for I wore three thicknesses of deerskin and two of wool under the overcoat. On that trip of three days I got five panthers and four wolves.

The same winter I surprised a pack of wolves that had cornered three deer in a pen in the Mehoopany country. I had on a wolfskin coat, and the wolves legged it out of the pen the moment catarrh will follow, such as bad they got sight of me. I pulled off the and his habitation was a hollow sych breath, severe pain across forehead coat and put it behind a tree, and the more tree, a giant of the mountain for the overcoat wasn't in sight, they didn't care any more for me than for a sapling. Joel's hunting knife was in a pocket of the overcoat, and the point of it had pierced the heart of the angry animal when he hugged the coat to his breast in a fit of rage."

On Bad Handwriting.

[From Harper's Young People.] One of the most important things for boys or girls to learn is to write plainly, so that those who have to read what they write are left in no doubt as to their meaning. Several amusing stories of the embarrassment which has followed not learning to write legibly are told One of these is of a Massachusetta clergyman who nearly got himself into peck of trouble because of the bad qual ity of his hand writing. It was more than a century ago that this clergyman had occasion to address a letter to the general court of Massachusetts upor some subject of great interes at that When the letter was received the court ordered the clerk to read it and were filled with wrath at what appeared to be these words in opening: "I address you not as magistrates, bu

LIVED IN A HOLLOW TREE.

Mysterious Hermit Hunter Who Was Found in the Ozarks.

[From the Springfield (Mo.) Dispatch.] The first settlers of Greene county who came from Tennessee to southwest Missouri about sixty years ago, were accustomed to send their stock down to the White river cancbrakes on the approach of winter. Both horses and cattle would live from December till March on the nutritious young cane that then grew so luxuriantly in all the bottom lands along the border of the state. The young herders who went to the canebrakes with the horses and cattle would take along a supplyof corn meal and a few simple cooking vessels, depending on their guns to furnish the meat need-ed during the winter. The stock required but little attention on accoun of the richness of the "range," and the men spent most of the time hunting.

From all the indications it appeared to the party of hunters who made the ghastly discovery that the hermit had fallen in a faint on the fire and died a terrible death there all alone in that Ozark wilderness. The had evidently been dead several days when the body was found. The re mains were given a very simple burial by the hunters, and the secret of Sloan's life was never revealed. Some persons thought that a love disappointment or a deeper domestic sorrow had driven the man into voluntary exile. while others half suspected that the hermit was a fugitive from justice and sought concealment under an alias in the wild solitude of the White river bottoms. After the death of the stranger there never came to the Ozarks t whisper of inquiry about the man.
